

TCM Forklift Parts

TCM Forklift Parts - In the international industry of material handling, forklifts play an important part for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the U.S., forklifts gained popularity after WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread worldwide.

In nineteen forty nine, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Currently the business is simply known as TCM Corporation. Over the years, TCM forklifts have become an international leader in lift truck manufacturing and have built a solid reputation in the industry. TCM began constructing forklift manufacturing locations outside of Japan in the 1980s and is presently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly manufactures several models of industrial lift trucks with more than 50 years of accumulated technology and expertise, making their products recognized and used all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading company.
