Clark Totalift, handles more than 120,000 specialized parts intended for 20 exclusive brands of lift trucks and automated equipment. Your regional Clark Seller is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark has a exceptional Parts Supply team. The items warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Internationally, Clark has one of the most outstanding dealer support networks. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering safety features such as the operator restraint system. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental restrictions, thus placing them in a dominant market position.

Clark has selected the structure of "Lean Manufacturing" at all of its assembly plants for the reason that this technique is particularly economical and permits minimal use of resources. Developed to ensure maximum proficiency, this system is intended to discover and acknowledge the most effective ways for manufacturing plant management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing costs. The new value engineering program combines modern product growth and delivers superior consumer support and service within the industry.
