

Spreader Bars for Forklift

Forklift Spreader Bars - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader maker all-around the globe. They have been a devoted manufacturer of spreaders used for various applications such as the handling of containers, swop bodies and trailers.

Engineering is done in-house by means of using the newest FEM tools and CAD systems. The ELME company now employs more than 125 personnel. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside across the globe.

The product series of ELME include many spreaders for various trailer and container handling operations. A few of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes and a wide array of attachments.

Production and manufacturing of ELME products are established in highly automated purpose built factory. In the year 2008, they made one thousand one hundred fifty spreaders by way of utilizing quality parts to ensure reliability and excellent standards. Major characteristics of ELME consist of design simplicity, market feedback and inventive modular spreader concept.
